

8 Ports Fast Ethernet Switch

200Mbps Full Duplex Transmission

Edimax ES-3208P is a high speed fast Ethernet switch for home and small business. ES-3208P not only complies with IEEE 802.3/802.3u 10/100Mbps Ethernet standard but also supports full duplex transmission. The full duplex feature can double the network throughput on every port. It is used for high speed server or switch-to-switch connections. The maximum throughput of every port can reach up to 200Mbps .

Supports Wire-speed and Flow Control

The ES-3208P built-in non-blocking and store-and-forward architecture feature your network with full-wire speed connections. It accommodates with flow control for full duplex mode and back pressure for half-duplex mode which ensure reliable data transfer and help to prevent data lost. Use ES-3208P to create a high-speeds network and benefit from it's ultimate performance and reliability.

Supports Auto-MDI/MDI-X and Auto Sensing

ES-3208P supports PnP (plug and play) installation and auto-MDI/MDI-X function. You can connect ES-3208P with computers or Ethernet devices without any configuration. You also can use either straight-through or cross-over Ethernet cable and combine 10 and 100Mbps devices into ES-3208P. The switch will automatically detect the right cable and speed for your device.

NETWORK SETUP DIAGRAM AND RELATED PRODUCTS

An example to setup ES-3208P:

- Connect the ES-3208P to your Router or cable/xDSL modem.
- Connect a computers to ES-3208P.
- You can also connect Print Server, NAS and IP CAMERA to ES-3208P.
